

## **CUSTOMER CHECKLIST**

### **Interconnection Application/Agreement – Part 1**

- Complete Part 1
- Attach one-line diagram (required)
- Attach site plan (required)
- Sign and date Customer-Generator Signature
- Contact Duquesne Light at 412-393-4343 to set up a Work Request Number. The work request number must be provided to your electrician for documenting the receipt of the approved wiring inspection for the completed installation and to ensure your billing account is updated with the proper rate information (required).
- Return Part 1 to Duquesne Light for Approval at 2841 New Beaver Avenue, Pittsburgh, PA 15233
- Upon receipt of Duquesne Light's approval, work can begin

### **Interconnection Application/Agreement – Part 2**

- Once work is complete on the project
- Complete Part 2 of the application
- Ensure your electrician or electrical contractor contacts an approved electrical inspection agency for your area with the Duquesne Light Work Request Number received in Part 1 to conduct electrical inspection (required)
- Have electrical inspector contact Duquesne Light at 412-393-4343, to submit documentation of the wiring inspection (required)
- Sign and date Customer-Generator Signature
- Return Part 2 to Duquesne Light for Approval

### **Final Step**

- Upon receiving a signed copy of the Application Agreement Part 2, and a copy of the electrical inspectors approved inspection card the Duquesne Light Work Request Number will be released for a meter change
- Within several days a new meter will be set and billing account will be updated to reflect Rider 21-net metering service
