*Please note that these dates are approximate and may change.

Please email egsregistration@duqlight.com to inform Duquesne Light of your intent to participate in an EDI testing block.

- The supplier must request testing and complete all Pennsylvania Public Utility Commission (PA PUC) licensing and Duquesne requirements at least 30 days before the test date. The due dates for the registration materials are listed above. Failure to meet this requirement may delay testing until the next block. For additional information, please visit <https://duquesnelight.com/docs/default-source/electrical-generation-suppliers/gettingstarted.pdf>.
- **Certification testing with Duquesne is not done using GISB1.4.**
- **NAESB 1.6 has been standard in PA since 2006, adhering to Internet EDI plan version 2.0.**
- **Connectivity testing for both inbound and outbound EDI transactions must be completed with Duquesne Light before the start date of your scheduled EDI test block. Please schedule the connectivity test at least three business days in advance.**
- **EDEWG Files can be found using the link below. Click on "EDI Transactions Version 4010"**

*Duquesne Light Company will make every effort to accommodate supplier testing; however, please note that Duquesne Light reserves the right to change the dates based on supplier participation or the company's business needs. Additionally, please be aware that "Test Date Completion" does not automatically permit the supplier to begin enrolling customers at Duquesne Light. Other requirements must be fulfilled in addition to testing before enrollments can commence.
